MESSAGE FROM DIRECTOR

परोपकाराय फलन्ति वृक्षाः परोपकाराय बहन्ति नद्यः।
परोपकाराय दुहन्ति गावः परोपकारार्थं मिदं शरीरम्॥

A Journey towards infinity

Our Resolve हमारा संकल्प

To keep Indian and Indism alive, it is necessary to build Akhand Bharatvarsh. It will include some secular countries and Muslim countries. , 'Akhand Bharatvarsh' will be able to unite India, Pakistan, Afghanistan, Tibet, Bhutan, Nepal, Myanmar, Bangladesh and Sri Lanka. Altogether it will be a strong political and economic forum of nine countries. These 9 country Navnidhis 1. Padma Nidhi, 2. Mahapadma Nidhi, 3. Neel Nidhi, 4. Mukunda Nidhi, 5. Nanda Nidhi, 6. Makar Nidhi, 7. Kachhap Nidhi, 8. Shankh Nidhi and 9. Kharva or Misra Nidhi is like.

According to the scriptures as told in the Puranas about Navnidhi, if any one person gets it, then he does not lack anything for the rest of his life. If this is possible, then till the ages, not only in the whole world, but in the entire universe, the flag of India will be unbroken. If it is understood in simple words, then it will work on the lines of the European Union. Some rules will continue to be similar to its European Union and some rules will be added to it from the point of view of security. The rules of Akhand Bharatvarsh will be applicable to all the member countries.

single currency system

single passport system

From the point of view of security, the single passport system will not be applicable to people of criminal nature. Every country will have its own rights for people with criminal tendencies. All countries will keep the information of their citizens public. With this, the tendency and mind of a particular person can be estimated in advance. By doing this many untoward incidents can be prevented and citizens can be given better safety and convenience.

Trust विश्वास...

The member states of Akhand Bharatvarsh can do business in the form of a single market, its law will be applicable to all the member countries, the citizens of Akhand Bharatvarsh will not have any compulsion to go to any country for business. For this it is necessary to have a single currency. Which will not only be convenient for the traders but will also play an important role in transparency.

Under this campaign, all those foreign dependencies are to be reduced, due to which most of India's trade is dependent on other neighboring countries. In this, without relying on outside items, it is involved in this campaign to prepare good quality products at our own level outside in our country itself.

Talking about today, there are many such things in our daily life, which our neighboring country China supplies to us. Apart from China, America, Korea, Saudi Arabia are also included in this category which fulfills the demand of our goods. If we want to strengthen the wings of India's development, then we have to become self-reliant first, then only our India will become a developed country from developing. Under this campaign, our essential and essential things will be manufactured in our country only then our country will be called self-reliant India.

The greatest quality of a person is self-reliance. A self-reliant person can become a support for himself. If a person is self-sufficient, then he does not need the help of anyone else. Our country of India has been one of the ancient cultures of the world and seeing the culture, color and style of this country, we can say that India is already quite self-sufficient. The true meaning of self-reliance is to develop oneself with one's own skills. Every person wants that he should become self-reliant, whether it is by his living style or by his manner. Every person wants that he should become self-reliant, whether it is by his living style or by his manner.

In order to make people self-reliant, the organization is not only working in the field of education, but is also making an important contribution in the field of agriculture. Rahi is focusing on a good source of income like Kiwi Mushroom. Organic farming has been the main objective of the organization in the field of agriculture. For people dependent on others, household life proves to be a mountain of sorrows. Therefore, before the beginning of household life, people start looking for employment. Self-reliance helps in increasing self-confidence, due to which the road to success becomes easier. A self-reliant person is able to make good use of his time. From the point of view of the organization, it can prove to be a milestone, it will be very easy for the institute to work in any country, rising out of government restrictions and contributing well to the public interest.

Education, Skill Development, Heritage Conservation, HealthCare, Sanitation, Health and Nutrition, Livelihood, Research on Technical Education, Migration, Heritage and Culture, Women Empowerment, Awareness Camp on road safety, Agriculture, Sports and Fitness, Cowshed Etc. Can work in all countries.

HARISH BORA
DIRECTOR

(On behalf of Akhand Bharatvarsh Foundation)

EDUCATION

2020-21

चलो जलाएं दीप वहां,
जहां अभी भी अंधेरा है!

LETTER FROM ABF Research Team

Our aim is not only to make doctors, engineers, collectors, leaders, actors etc., but also to create components dedicated to society and human welfare like humanity, morality, patient, prudent and patriot. It is not enough for a strong nation to be

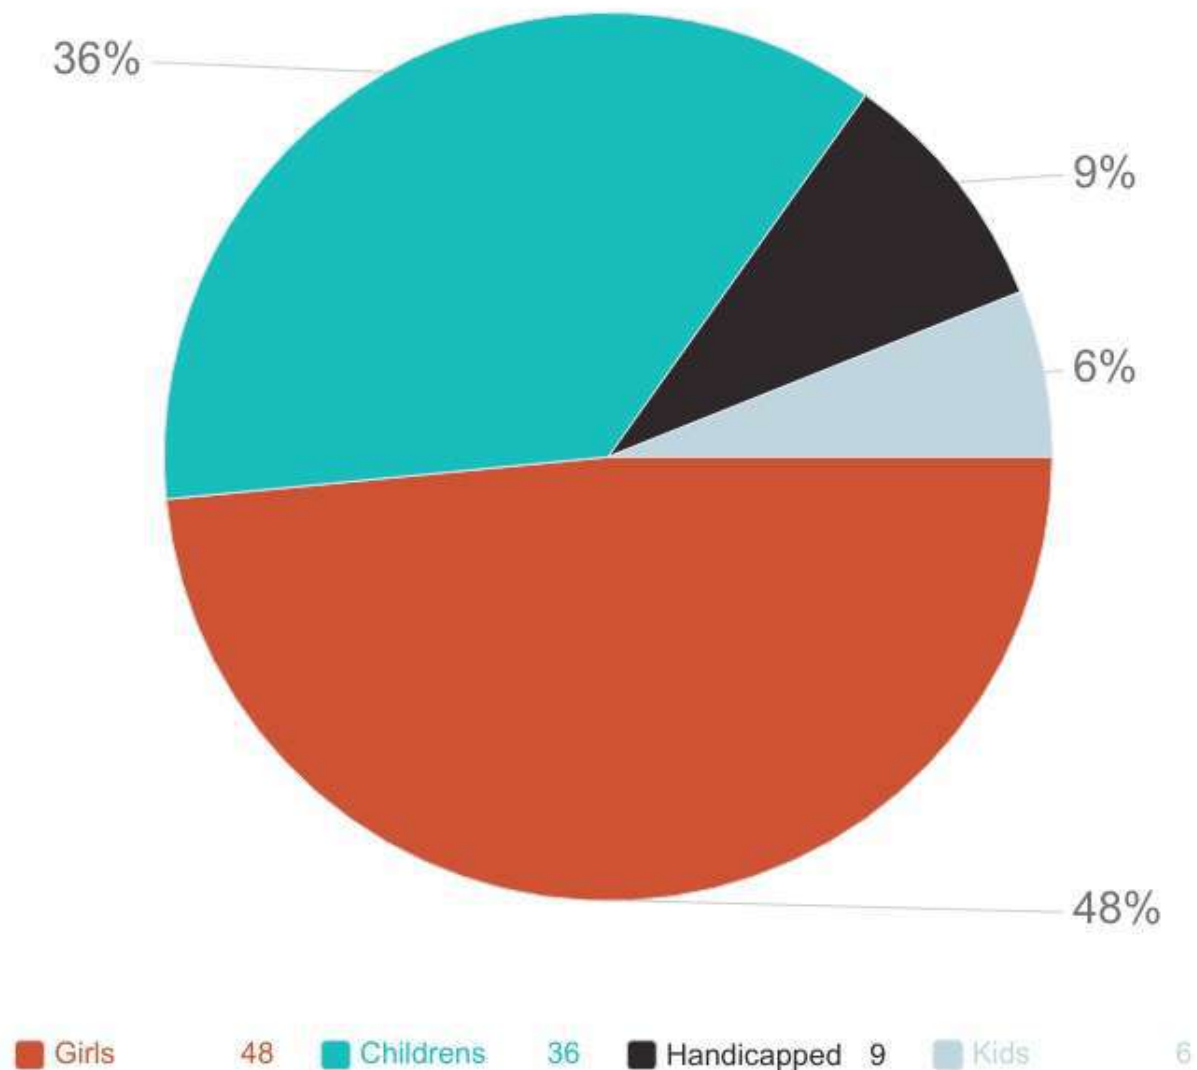

If the survey of educated youth dedicated to the nation is done, then this figure will be below ten percent.

WORD BANK REPORTS

educated, it is also very important to have a sense of national interests, if we talk about India's literacy, then it is not so bad either. In the field of skill, the organization has given training and employment opportunities to hundreds of children so far, some children have also opened their self-employment and today some are working in companies like MNC. Since the beginning, the institution is working in the field.

Report

The condition of the country's education system has been revealed in the World Bank report. A list of 12 countries of the world has been released by the World Bank, where the education system is the worst, India ranks

ranks second in this list. This list has been issued on the basis where students of class II cannot read even a word of a short text. Malawi ranks first in this list of the World Bank. ruining the future of youth.

Tasks were given to the children and prizes were given to the winners.

Health Awareness, Checkup

By ABF

Introduction to Health Care

In the field of health, the organization organizes health camps from time to time and provides free medicines and free check-up to the needy. The organization pays more attention to the elderly and children. Blood group camps are also run by the organization, India's place after the corona pandemic. May be better not because India has good health services because people of India have good immune system.

Condition Of INDIA ?

According to a study by the medical journal 'Lancet', India ranks 145th out of 195 countries in the world in terms of the quality of health services and their accessibility to the people. The post is also behind Bangladesh and Bhutan in terms of quality of health services. The Global Burden of Diseases Study states that it is still a challenge in India to ensure access to health services to every Indian as compared to the year 1990. The ranking of the availability and quality of health services in India in the 2016 study was 41.2, which is much better than in 1990 (24.7). Highlights of the report with reference to India

According to Lancet

1

India's health care and quality ranking saw rapid improvement from the year 2000 to 2016.

2

A huge difference was seen between India's highest and lowest scores during this period. In the year 1990 this difference was 23.4 while in 2016 this difference increased to 30.8

3

According to the report, Goa and Kerala had the highest (more than 60) marks in 2016 while Assam and Uttar Pradesh had the lowest (less than 40) marks.

4

The position of India is not good even compared to the neighboring countries of India. This includes China (48), Sri Lanka (71), Bangladesh (133) and Bhutan (134).

What we think

No one can survive without food and by eating the right food, a person will not only be saved from diseases and his life will also increase. health problems will end.

The biggest problem is all these things are interlinked with each other.

Problems are created and other things are made to solve them the only way to avoid all this is to make people aware.

Future: Plans

The organization is considering to open blood donation camp Eye check up bike ambulance ambulance lab and hospital in future.

The background of the slide features a photograph of two men standing in an urban environment. The man in the foreground is wearing a tank top with a colorful Indian flag design and dark shorts. The man behind him is wearing a black long-sleeved shirt. They are standing on a paved area next to a concrete wall and some greenery. A large, semi-transparent blue geometric shape, resembling a stylized arrow or a large 'V', is overlaid on the right side of the image, pointing towards the left. The text 'Swachh Bharat Mission' is written in white, sans-serif font within this blue area.

Swachh Bharat Mission

ABF

Under the Swachh Bharat Abhiyan, every year cleanliness campaign and awareness campaign is run by the organization, soon the organization will make arrangements to donate garbage to the poor people.

Do your part to save the heritage.

Our India country is a country of 'Unity in Diversity'. People of different religions and sects live here. Everyone has their own languages, living habits, costumes, customs, Vedas, Puranas and literature. Everyone has their own culture. The culture of all the people is maintaining their identity. It is only in the light of culture that India can protect its individual and universal values of life

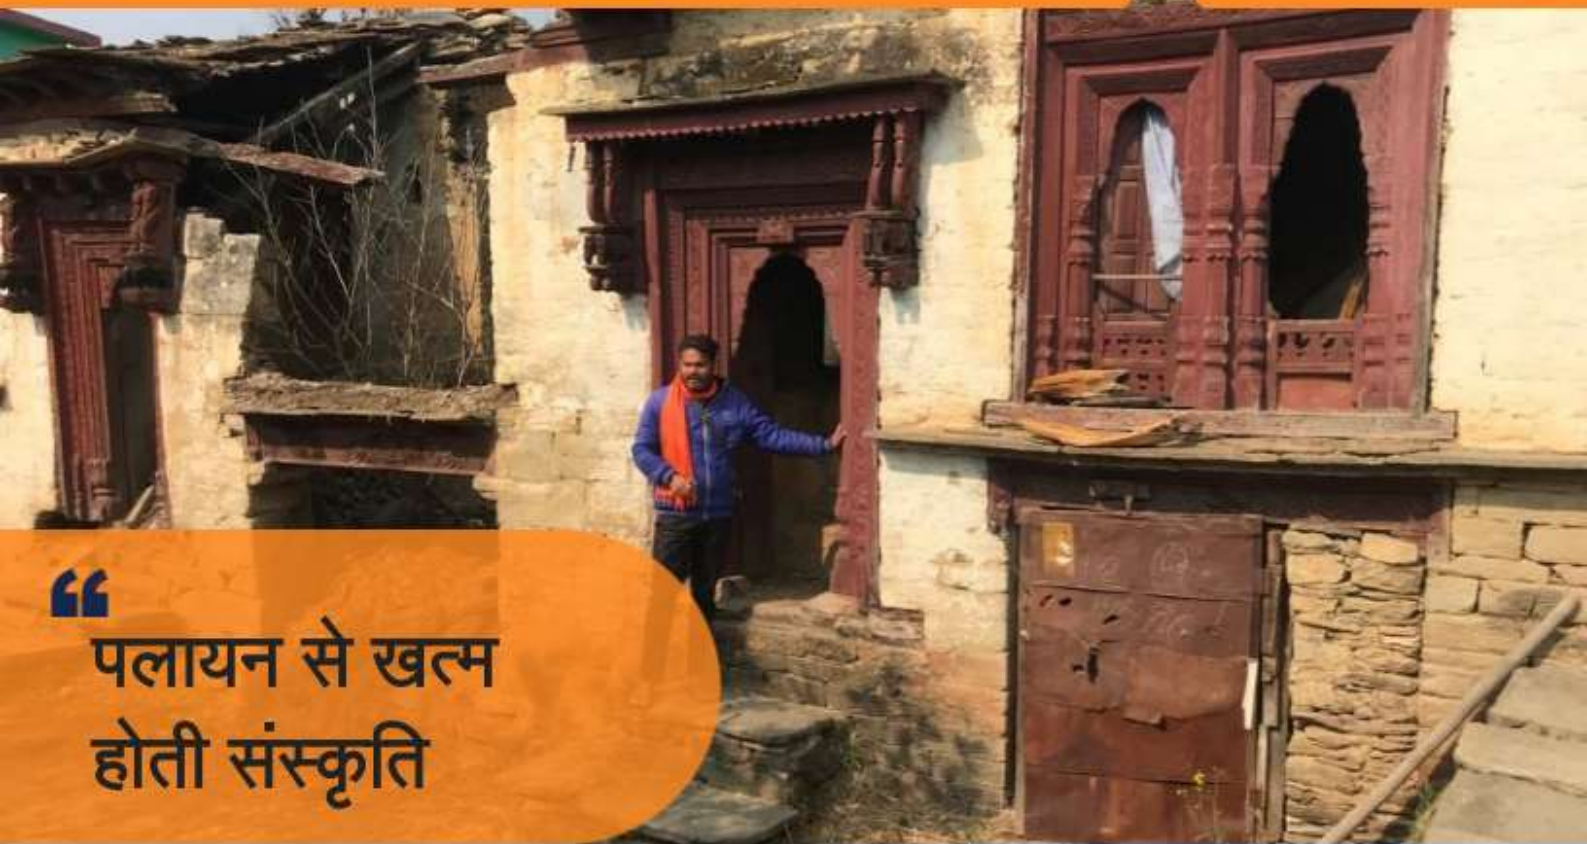

Email Types & Metrics

It is a feeling of our existence.

Culture is such a wide spectrum in which both man and God take refuge. Now such a vast experience cannot be imprisoned in any boundary wall. Actually what should have happened did not happen but its opposite happened. Today the sattvik ancient form of our culture is getting destroyed.

Success was not being achieved in sorting out the looming clouds of economic slavery. The country and society are giving birth to many other problems by getting caught in immature experiments. Similar symptoms are beginning to emerge in India which is already experiencing the same suffocation and stress as the Western life, plagued by deformities, flourishing and growing under the shadow of prosperity.

Migration

“
पलायन से खत्म
होती संस्कृति

Migration has emerged as the biggest problem in Uttarakhand. If you look at the report of the Migration Commission, till now 1702 villages have become deserted due to migration. In more than 500 villages, the population is less than 50 percent. With this, the process of migration continues unabated.

Only

Reverse
Migration

The existence of villages will disappear

Uttarakhand Kranti Dal (UKD) Diwakar Bhatt told Down To Earth that the delimitation on the basis of population will definitely reduce the assembly seats and the remaining villages will cease to exist in the coming times. He says that due to the delimitation on the basis of population, the historical importance of the movement for a separate state will be lost. Environmentalist Anil Joshi also believes that there should be delimitation on geographical basis. He says that in the last delimitation the seats in rural areas had decreased while the seats in urban areas Dehradun had increased.

32 lakh People Migrated

It has been said in the report that after the formation of a separate state, about 60 percent of the population or 32 lakh people have left their homes from Uttarakhand. The Migration Commission report says that 1,700 villages in Uttarakhand have been haunted in 2018 and there are about 1,000 villages where less than 100 people are left. Altogether 3900 villages have migrated. The population in Uttarakhand has grown at the rate of 19.17 percent between 2001 and 2011. The population of Pauri was 3,66,017 in 2001, which decreased to 3,60,442 in 2011. That is, the population of Pauri decreased by 5,575 in 10 years. The population of Almora also decreased by 5,294 during this period.

35% Population Migrated

35 percent of the population living in the rural mountainous regions of the Himalayan state of Uttarakhand have left their ancestral home since the formation of the state of Uttarakhand in the year 2000. On an average 246 people are migrating from these areas every day. If the migration continues at this pace, the political geography of Uttarakhand may change.

But now 70% of Total Population Migrated...

It's Time for Organic Farming

By ABF

Investing in a greener

INDIA

A AGRICULTURAL COUNTRY

India is an agricultural country. Agriculture is the backbone of the Indian economy. Agriculture in India has been done since the time of Indus Valley Civilization. After 1960, a new era came with the Green Revolution in the field of agriculture in the country. Some important facts related to agriculture in India are as follows:

कृषि प्रधान देश

(1) Agriculture on about 51 percent of the total area of India, grassland on 4 percent, forest on about 21 percent and 24 percent barren and unusable.

(2) About 52 percent of the total labor force of the country earns its livelihood from agriculture and related industries and businesses.

(3) The proportion of agriculture and allied goods in India's exports in 2004-2005 was about 40 percent.

(4) India ranks second after China in the production of rice in the world. Rice is cultivated on about 47 percent of the total area under food grains in India.

(5) India ranks second after China in the production of wheat in the world. Wheat is cultivated on about 15 percent of the total cultivable land of the country.

(6) Uttar Pradesh ranks first in the production of wheat in the country, while Punjab ranks first in production per hectare.

(7) The Green Revolution has had the biggest impact on the cultivation of wheat and rice, but the production of wheat increased more than rice.

(8) The credit of bringing Green Revolution in India goes to Dr. MS Swaminathan. Green Revolution started in India in 1967-1968.

(9) The First Green Revolution was followed by the Second Green Revolution in 1983-1984, in which increased grain production, investment and services to farmers expanded.

(10) Oilseeds Technology Mission was established in 1986.

(11) India is the third largest producer and consumer of fertilizers in the world.

(12) Potassium fertilizer is completely imported.

(13) India ranks first in the production of mango, banana, chikoo, sour lemon, cashew, coconut, black pepper, turmeric.
(14) India ranks second in the world in the production of fruits and vegetables. And the government is busy ruining the farmers.

Why

Irrespective of the weather, the Indian farmer engaged in extracting gold from the land remains poor after 70 years of independence and even after the success of so many projects.

Planting a Better Tomorrow

Akhand Bharatvarsh Foundation

Facts

According to the scriptures, when Brahma ji had created the universe, he was the first to send the cow to the earth. Of all the animals, the cow is the only animal that utters the word mother, so it is believed that the word mother has also originated from the cow dynasty.

In Hinduism, the cow is given the status of mother goddess, it is believed that 33 crore gods and goddesses reside in the cow. Therefore every person in the society should serve the cow. A person who serves a cow becomes a partner of virtue. Purity of mind, speech, deed and body is possible only by doing cow service.

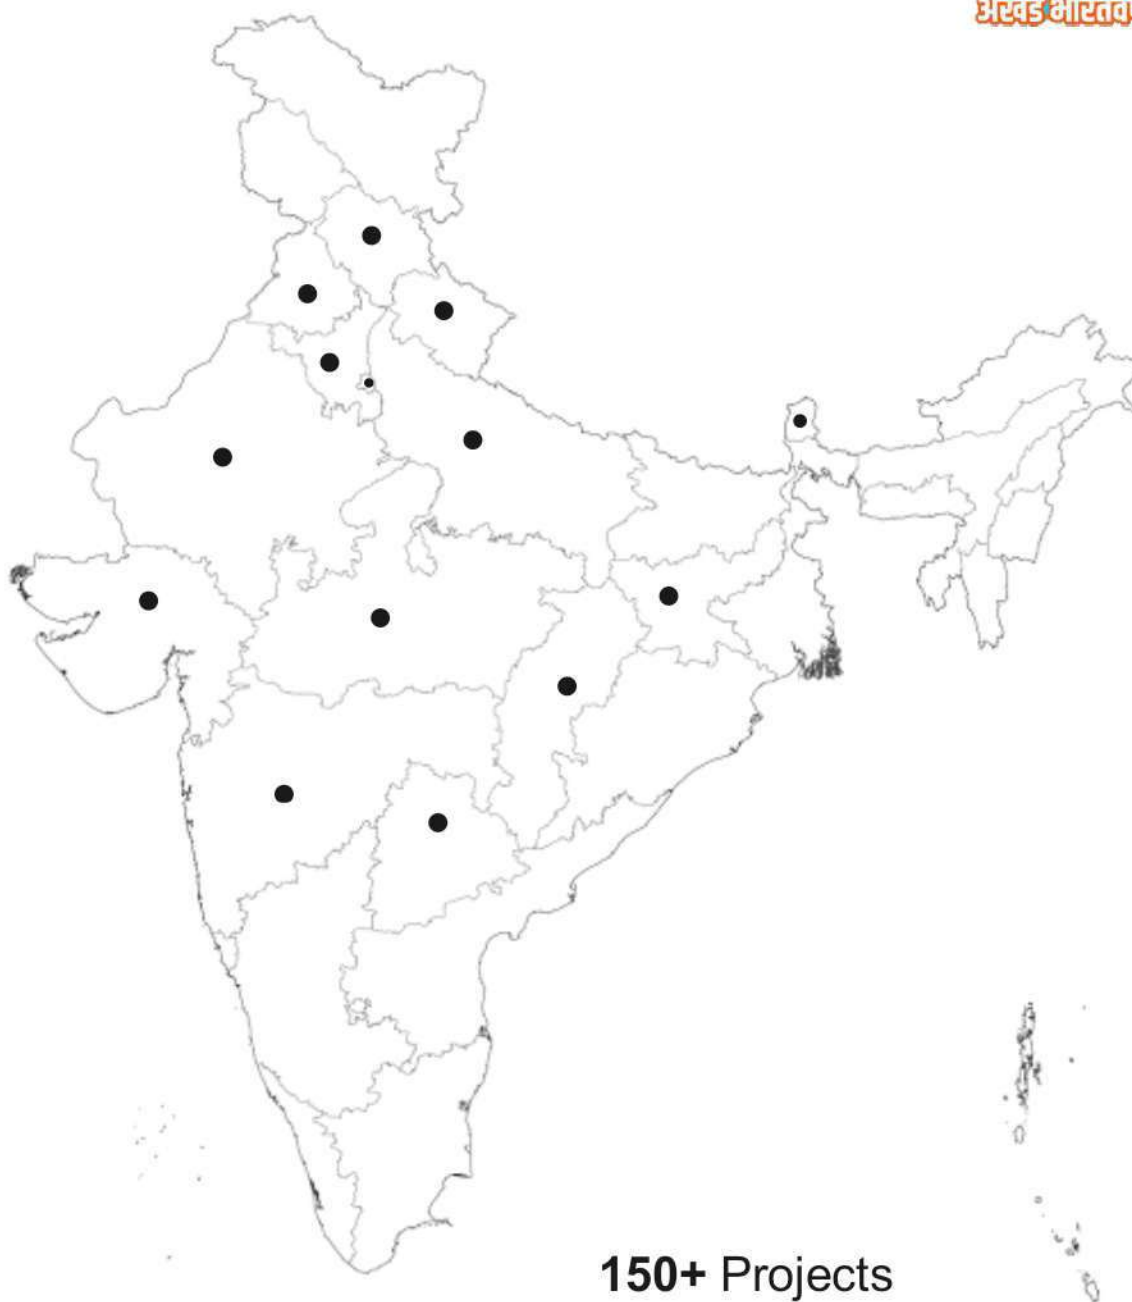

If one spoon of cow ghee is put in the fire, then one ton of oxygen can be produced from it. By offering offerings in the Havan, the deities get their Bhog, when we put the Gaughrit in the Havan, then all the 9 planets get their Bhog. The sun's rays get energy by offering offerings from Gaughrit. The environment is pure, when Varun Dev gets this energy, then there is rain in the country, food, paddy, trees and plants etc. get life.

Message by गौ सेवक

Cow service is necessary to save the human race, all the gods and goddesses reside in the cow, by doing only cow service, you get the blessings of all the deities.

I am Hema Bhandari, today I am working in account sector in Delhi Naraina. The credit for all this goes to Pratigya Computer Center, I got encouragement from there, I am what I am today because of that. Thanks ABF

5

Surendra singh

I am Surendra Singh, Village Sogoda, Post Jarshi, Uttarakhand I took free computer training and personality development classes in Pratigya computer center. I am doing self employment today I thank Akhand Bharatvarsh Foundation for all this.

6

Jyoti

Myself Jyoti, working as a Sales executive in Gurugram. I thanks ABF to give me free training in computer and PD classes.

7

Karan Rawat

Thanks ABF, today am am working in Delhi. Today I am running the livelihood of myself and my family.

अखंड भारतवर्ष फाउंडेशन ने प्रतियोगिताओं का आयोजन कर बच्चों को पुरस्कार वितरित किये फाउंडेशन गरीब बच्चों को दे रहा निःशुल्क ट्यूशन

काशीपुर एक्सप्रेस, अल्मोड़ा

अल्मोड़ा। अखंड भारतवर्ष फाउंडेशन जिला अल्मोड़ा एवं देघाट क्षेत्र के ग्राम कुलसीरा के गरीब बच्चों को शिक्षा के प्रति जागरूक कर निशुल्क ट्यूशन क्लासेस दे रहा है।

फाउंडेशन के हरि सिंह द्वारा सभी गरीब परिवारों के बच्चों को निशुल्क शिक्षा दी जा रही है। अभी तक लगभग 80 से ज्यादा बच्चे इसके लाभार्थी हो चुके हैं। इसी कड़ी में बीती 14 जनवरी को अखंड भारतवर्ष

फाउंडेशन द्वारा बच्चों को पलायन पर रिसर्च के लिए टास्क दिया गया, और 16 जनवरी को सभी से रिपोर्ट मांगी गई। इसके अलावा छोटे बच्चों को क्षेत्रीय त्योहारों पर निबंध प्रतियोगिता कराई गई। विजयी प्रतिभागियों को पुरस्कार वितरण के साथ ही मिष्ठान वितरण किया गया। इस अवसर पर हरि सिंह ने बच्चों को शिक्षा का महत्व बताते हुए उनके उज्ज्वल भविष्य की कामना की। आयोजित कार्यक्रम में हरीश बोरा, हरि सिंह, कुबेर एवं देव सेना के प्रदेश संगठन मंत्री शम्भु लखेड़ा आदि सम्मिलित रहे।
